WAUKESHA GUITAR TOWN MURALS & GUITARS

Did you know that Waukesha was named a Gibson GuitarTown? For two years (2012-2013) Gibson Guitar Company selected Waukesha for its eighth and ninth worldwide GuitarTown designation to honor the birth and final resting place of guitar legend Les Paul. Other designated cities include Los Angeles, Cleveland, Miami, Orlando, Austin, Nashville and London.

Throughout downtown Waukesha, you will find a series of murals focused on Les Paul and the history of Waukesha at various locations. The GuitarTown murals were painted by the nationally acclaimed Walldogs, a group of sign and mural artists who have done many projects around the United States. Some murals have also been painted by local artists.

During the months of May – October you will also find large 10-foot tall fiberglass sculpture Gibson Les Paul guitars painted by local artists in various locations throughout Waukesha.

Both murals and 10-foot tall guitars are great spots for photos. Be sure to tag your photos #visitwaukesha for a chance to have your photo featured.
